

SMARTER SITE MANAGEMENT

The simplest way to track hauls, loads, and time on site.

### Trukton replaces paper-based tracking with a faster, more accurate way to manage hauling activity on job sites.

### **Ready in minutes**

Get your crew up and running fast, no IT required. Trukton is built for instant use, right out of the box.

### **Easy to Use**

Intuitive design means anyone can start tracking with zero training. Simple, clear, and built for the field.

### **Ditch the paper**

Replace handwritten logs with clean digital entries. No more messy paperwork and lost tracking sheets.

### **Records you can trust**

Every load and hour is logged securely, making reviews, reporting, and audits faster and more accurate.

### Works without signal

Trukton keeps tracking, even when offline. Data syncs automatically once you're reconnected.

### Clean, accurate data

Eliminate errors and guesswork. Timestamped, standardized entries keep your records consistent and reliable.

### **Owners/Operators**

Trukton is built for independent drivers, operators, and fleet owners who need a fast, simple way to track their work and stay organized.

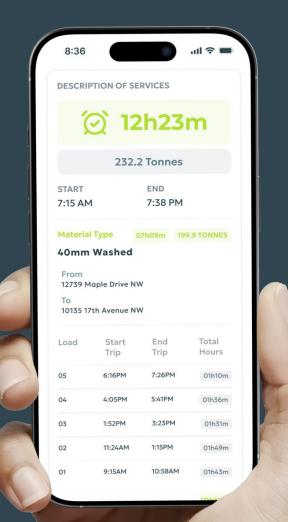

### Organizations

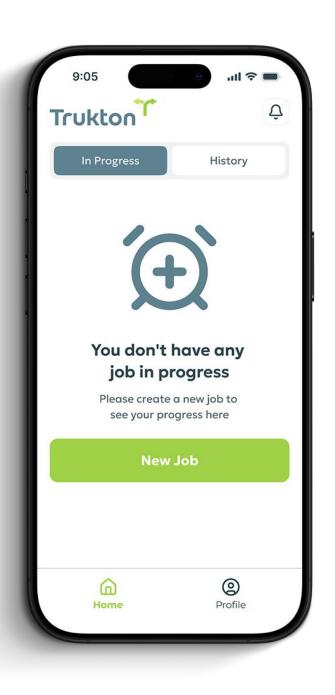

Trukton is built for companies that manage crews, equipment, and job sites across multiple projects and locations, and need better visibility, accuracy, and control.

### See how the job gets done.

From setting up a new job to sending off the final ticket, Trukton is built to keep things moving. Here's how operators track hauls, log loads, and stay organized, without the paperwork.

### Start a new job. **Fast.**

No delays, no confusion. Starting a job takes just a few taps so operators can get moving without skipping a beat.

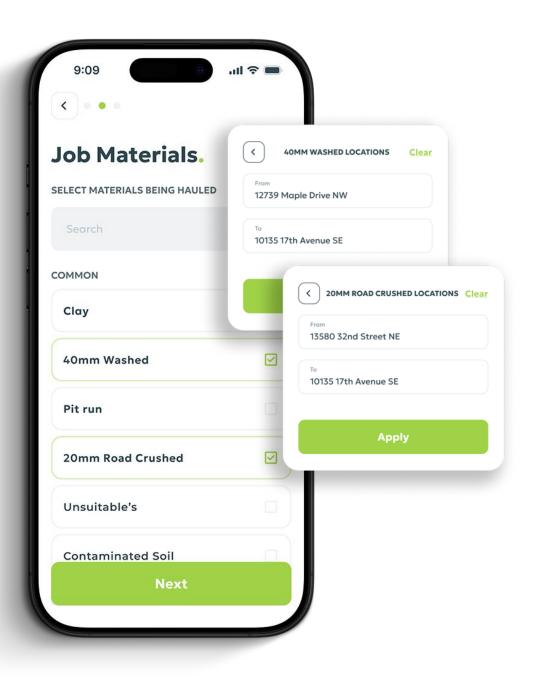

## Get set up. **Easy.**

Everything you need to get started. Just a few quick steps to set things up so you can hit the ground running when you arrive on site.

## Set your hauls. Check.

Choose what you're moving and where it's going. It's simple, clear, and keeps everyone on the same page from the start.

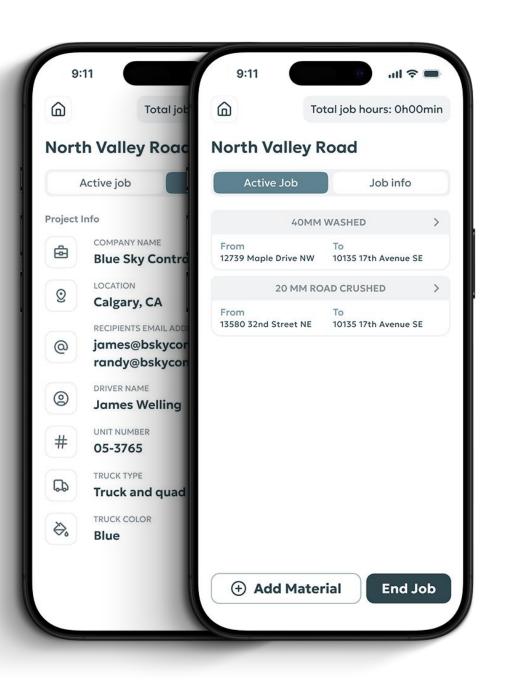

### Lock it in. **GO.**

Once the job's set, you're ready to roll. Just confirm and start tracking when you arrive on site.

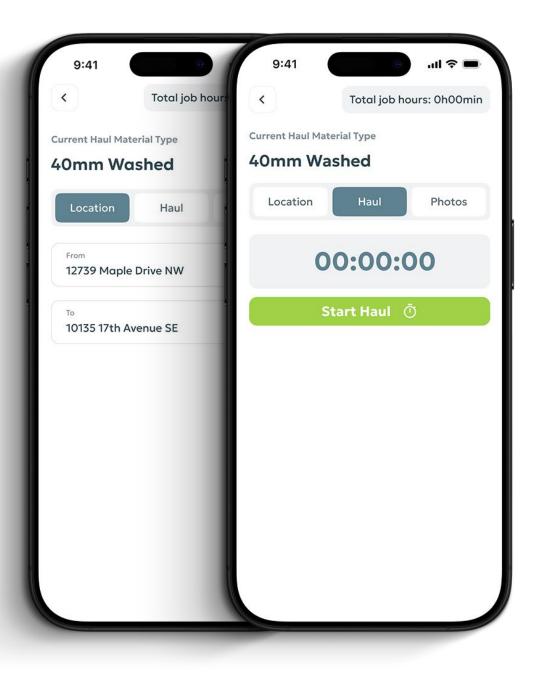

### Review your job. **Effortless.**

Quickly view and access your active job or start a new material haul with just a few taps. Simply select your materials, set the locations, and you're good to go.

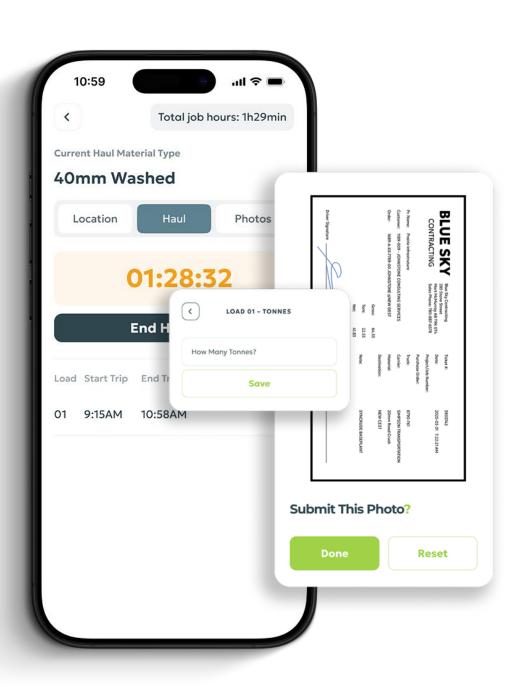

# Start your haul. **Instantly.**

Once the job's set, you're ready to roll. Just confirm and start tracking once loading begins.

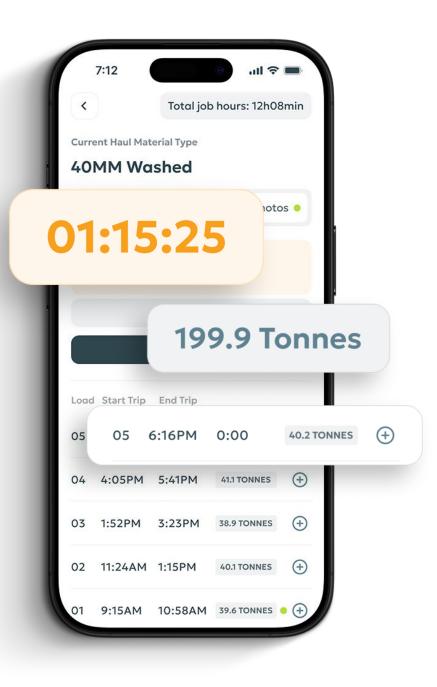

## Track and manage. Simple.

Whether it's one load or ten, tracking is easy. Add weight, snap a photo of the ticket or anything else worth documenting, and keep everything moving without missing a beat.

### View your summary. **Clear.**

Get the full picture in one place. Total time, total weight, and a clear breakdown of every load, it's all here, no digging required.

### Sign it. Share it. **Done.**

Once your job's done, sign and share the ticket. No extra paperwork, no confusion. Just accurate, digital records sent to the right people, instantly.

## Your job details. **Delivered.**

Once the ticket is signed and shared, the completed job summary is sent by email through the Trukton app, making it easy to keep the right people informed.
